SILPA SURESH

Bangalore, India | silpa.suresh94@gmail.com | 8553966179
GitHub: https://github.com/silpa9

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with 1+ year of experience in SQL-driven data analysis and Databricks-based analytics solutions. Strong expertise in advanced SQL querying, data transformation, and performance optimization. Experienced in Azure Data Factory incremental loads, SCD Type 2 implementation, and generating business insights from large datasets.

TECHNICAL SKILLS

SQL & Databases: MySQL, Hive, Databricks SQL
Data Processing: Apache Spark, PySpark
Cloud & Tools: Azure Data Factory (ADF), Azure Data Lake Storage (ADLS), Databricks, Delta Lake
Concepts: Query Optimization, Indexing, Partitioning, Incremental Loads, SCD Type 2, Data Modeling
Programming: Python
Workflow: ADF Pipelines, Airflow

PROFESSIONAL EXPERIENCE

Executive – Data Analytics | Anthem Biosciences Pvt Ltd | Bangalore | Mar 2021 – May 2023

- Analyzed large pharmaceutical datasets using SQL and Spark to identify trends and improve reporting accuracy.
- Optimized SQL queries, reducing execution time by 40% through indexing and partitioning.
- Developed analytical reports supporting R&D and operational decision-making.
- Streamlined data processing workflows, reducing processing time by 20%.
- Collaborated with cross-functional teams to translate business requirements into data-driven insights.

PROJECT EXPERIENCE

Databricks SQL Analytics Project | GitHub: https://github.com/silpa9/databricks-sql-data-engineering-project

- Built end-to-end SQL-based analytics solution using Databricks Serverless SQL Warehouse.
- Designed incremental data pipelines in Azure Data Factory.
- Implemented Slowly Changing Dimension (SCD Type 2) for historical tracking.
- Optimized Spark SQL jobs using partition tuning and caching.
- Generated KPI-based reports for analytical insights.

EDUCATION

Master of Technology (M.Tech) | R V College of Engineering | 2017 – 2020
